There is a part number issued for each different colour  
\*See note below

Fuel Type is the kind of wood that can be burned in this fire

This item number refers to the whole fire, it differs depending on the colour of the fire you purchase

Each different colour is given its own suffix, please see the table below  
This is to be used when purchasing parts

\*Parts such as panel will need to be ordered based on the colour of your fire  
For example if you need a side panel for your Matt Black Enamel fire you would order the part number with E01 at the end  
Eg: Top Panel part number for a Matt black fire is 994201 E01
